Rabat Training Center

Celebration of the 10th Annual Course in 2011

Declaration of Rabat:

« Africa Against Viral Hepatitis and Hepatocellular Carcinoma »

Prof. M. Classen and ...

4 & 5 February, 2011

Rabat Training Center

What more can we do than to wish the GF, its director and coworkers a long, happy and prosperous life, and belief in its precious support role in Hepatogastroenterology over the world and particularly in Rabat.

Hand in hand, we

Provide Training and Education in gastroenterology that:

- May not exist locally (**several African countries have no programmes**)

Link gastroenterologists with the global GI community

- Minimising their sense of isolation

Rabat Training Center

This is an opportunity for me to pay a great tribute to Professor M. Classen, both President of the Munich Gastroenterology Foundation and godfather of the WGO-RTC for its generosity material and scientific.

Professor Classen is the founder of the Centre, he participated in its creation and contributes to its development. He has created a special link with the IDCA (International Digestive Cancer Alliance), which opens new opportunities for training and allows our center to enhance its ambition in digestive oncology.

Naïma AMRANI

WGO-RTC Director, Mohammed V University, Rabat - Morocco

Thank you Prof. Classen. We are waiting for you.
Don't forget our annual sacred appointment in Rabat

11th RTC Annual Course :
26 January to 5 February 2012
